Tis is from the heart right here, this is from the heart
right here, this is from the heart right here

i was out there,
hopeless, floatin'
i was so confused,
it felt just like
my heart was closin'
and no sun was shining through everywhere i turned
was faced with dissapointment
because i tried it my way
so now its time to stop
ask for directions
so i dont make the same mistake im going through
some changes in my life
makin' it hard to see
wont let it get the best of me down to my last life line
and i need to survive so i,i

im callin' on on
to stop the rain
im callin' all night
till hes a blame
im callin' on live
to save the day

immma stand right here cause
love's goin' rescue me
oh oh oh rescue me
oh oh oh rescue me
oh oh oh loves goin'rescue me
imma stand right here cause love's goin' rescue me

love has got a way of healin' completely everything
it has to all fall down to start rebuilding together piece
by piece and in the mist of my most fragile times
im not easy to break
now that i have the friend to make a move im no
steppin' on my own way
im going through some chages in my life makin' it hard
to see wont let it get the best of me down to my last life

line and i need to survive so i...

im callin' on on
to stop the rain
im callin' all night
till hes a blame
im callin' on live
to save the day

immma stand right here cause
love's goin' rescue me
oh oh oh rescue me
oh oh oh rescue me
oh oh oh loves goin'rescue me
imma stand right here cause love's goin' rescue me

if you tired of ?all this? searchin for light
so yo love come rescue me
please come and rescue me
if you tired o cryin' tryin' eyes.
so yo love come rescue me
please come and rescue me
cause only love can bring you piece of mind
so yo love come rescue me
please come and rescue me
and if you dont a get it right this time
so yo love come rescue me
please come and rescue me

im callin' on on
to stop the rain
im callin' all night
till hes a blame
im callin' on live
to save the day

immma stand right here cause
love's goin' rescue me
goin rescue me
rescue me
imma stand right here cause love's goin rescue me...
