Speaker:

Okay, roll the drums

I want a girl
I want a girl
Who always has the time
To share my world
And count the stars above

I want a girl
I want a girl
Who still believes in love
Someone who sends
The tears of love

I want a girl
I want a girl
That I can really trust
A girl that's patient
And who loves me when it's love

I want a girl
I want a girl
As smart as she is fine
Someone that I can say is mine

This girl I describe
It really does exist
Baby have you noticed

Chorus:

I want a girl like you
To be with me tonight
I wanna kiss your lips
And hold you close
And dance all night
I want a girl like you
to keep it new and new
I wanna be the one
to say the words I love you
And your love

Is all I'll ever need

(Baby, oh yeah)

I want a girl
A girl that makes me laugh
I want a sentimental
And to be my better half

I, I want a girl
One my father loves
That's the one
I'm dreaming of, yeah

Only one girl
Is the true lust of my lips
Don't you need to know this

(Chorus 2x)

Speaker:
This should be
Played at high volume
Preferably
In a residential area

(Ooh, yeah)

Only one girl
Is the true lust of my lips
Don't you need to know this

(Chorus)
