From the beginning you had my heart  
You would do little things to wow me  
I thought you were the one  
I never knew you could hurt me  
I was so far gone  
Then suddenly we lost something  
So why do we hold on  
(And no) it's not a common thing  
Love don't disappear  
(Oh) arn't you done acting  
Like we really care  
(It's gone) this ain't yesterday  
Things just ain't the same  
(So long) it's just another love story  
Gone wrong

Now you need to leave  
That way I'll keep you from hating me  
From hating me  
It's not you, it's me  
It's time to play out this ending  
It's killing me  
Cause I hate to see you go  
Said I hate to see you go  
Cause I hate to see you go  
Oh baby let the credits roll

I'm tired of you asking  
Baby what is wrong  
When we both know that love is gone  
So now let's move on  
Yeah before we start fighting  
And we lose it all  
It's best that we keep memories  
From when we were in love  
(And no) it's not a common thing  
Love don't disappear  
(Oh) arn't you done acting  
Like we really care  
(It's gone) this ain't yesterday  
Things just ain't the same

(So long) to yet another love story  
Yeah yeah

Now you need to leave  
That way I'll keep you from hating me  
From hating me  
It's not you, it's me  
It's time to play out this ending  
It's killing me  
Cause I hate to see you go  
Said I hate to see you go  
Cause I hate to see you go  
Oh baby let the credits roll

If you think less of me  
First you should know  
It's hard for me to say these things  
Cause you gave me hope  
There's no need to debate  
Baby this ain't faith  
A fool would stay and that ain't me  
So don't get mad just walk away  
I don't wanna do  
What I'm about to  
But there's no way around it  
Just let go  
Cause there'll be no happy ending  
I couldn't play that role

Now you need to leave  
That way I'll keep you from hating me  
From hating me  
It's not you, it's me  
It's time to play out this ending  
It's killing me  
Cause I hate to see you go  
Said I hate to see you go  
Cause I hate to see you go  
Oh baby oh  
Cause I hate to see you go (with me)  
Said I hate to see you go (just go)  
Cause I hate to see you go (go)  
Oh baby let the credits roll
