In my carrier I had some circumstances
Blowing up and find the camera doing
I was all over already was on your TVs
But momma told where success ther will be problems
Comes with being a star and only God can help you
solve them
Now I know I know exactly what she means
Cause strangers from the dark are coming after me
Reaching for my heart lauding for my soul
Won't they let me be
They say some crazy things about me
Love who I employ
I don't know whatever happened to the song
Cause in my songs I had to let it burn
And I confess in my song I move so many mountains
In my songs I gave you all of me
Cause strangers from the dark are coming after me
Reaching for my heart lauding for my soul
Won't they let me be
I knew mine I knew mine
