All women are insane
Some were born with no brain
They bitch and cuss on the rag
Know they are one hell of a drag

If everything don't go their way
They must fuck and suck me for their pay
Males are superior
Females are inferior

Im going in an east direction
She's showin' yeast infection

It's mind boggling to watch
The blood dripping from her crotch

Instead of being out on the road for a screw
They want you to stay home and cuddle too

The orgasms she wants to fake that ain't right
Now its anohter headache tonight
Shes Dumb she think theres another women to take me
away
But she's the only one to give me a lay

All women are insane
Some born with no brain
