bust our loved ones through the gate  
can't leave now they're to late  
smiles painted on the scene just call me crazy mickey  
In the day we'll be your friends  
closing time at our hands  
m i c k e y  
the gates are locked it's time to die  
couldn't controll what's on my mind  
You wish to God you never stayd behind

we come from disneyland  
we got the whole world in our hands  
we are not nice at all  
with a big slingshot we'll have a ball  
we got you trapped inside the lights go out it's suicide  
mickey give me a minute or two  
sending our city all after you  
the nights are rare in disneyland  
why won't you come and join our happy band

we have our shiny teeth and a grim so big it's beyond  
belif  
we like to cause you greef because we're so naughty  
snow white's gonna make a scene, she does the jobb  
for me  
hey hey hey hey hey hey ho  
it's of to hell we go  
got no time to catch your breath,I bring you  
technicolors death

we come from disneyland....

solo

we come from disneyland...

we come from disneyland...
