Don't ya love it baby  
When you gotta get it on  
With a cruster  
With a hard on and bad breath breathing in your face

Saw you walking down the street  
Watcha doing, out walking your beat?  
I got money, I got power  
How much to give you a golden shower

So she got in my car  
And we drove real far  
So she could  
Kick it on down  
Talking 'bout your body yeah  
Kick it down slut  
Kick it on down

Well I got money  
And I want  
Your pussy  
And your tits  
Kick it on down

Wench  
Your body is ours to share  
Let me help myself to your body  
And we'll go  
Around the world

Kick it  
Kick it  
Kick it on down  
Talking 'bout deep throat  
Down

Talking 'bout your body baby  
I wanna piece of you  
Take you home for my buddies to also screw

Don't ya love it when I introduce you to the guys out

back  
Kick it on down  
Don't go home to your main man,ya gotta stay here  
Kick it on down  
To the road crew yeah  
Kick it on down  
To the photographer and the soundman  
Kick it on down

Hussy,your body is ours to share  
Let me help myself to your body  
And we can be naked together  
Down  
Kick it down,kick it down

Don't ya love it when you gotta get it on  
With a bald,fat,bearded,bad breath slob  
And ya know you gotta do it for drugs or money  
Beacause that's your job  
Yeah,kick it down to a crusty hippie  
Slut,kick it down to the dudes on Hollywood and  
Western  
Kick it on down  
At the rector hotel you gotta  
Kick it on down  
To the swedish erotica team  
Kick it on down  
To a drug dealer,kick it down  
Kick it on down  
Do it for drugs,or do it for money  
Either way,I think it's funny

Don't ya love it now yeah  
Kick it on down  
Pull off your clothes  
I wanna see those boobs  
Kick it on down  
No,we're not done yet  
We got more dudes to screw you all around  
Kick it on down to a cruster  
To a bum under the freeway  
Kick it on down  
To a lice ridden,crusty biker  
Kick it on down  
Sleasy cum,yeah,rubbin' in your face  
Kick it on down  
To me yeah,and all my road crew  
Kick it on down
