Wine you and dine you
Baby yer so fine
Wine you and dine you
Let's sixty nine

Lets go yer house
And kick back in the shade
Take off yer blouse
It's time to get laid

Wine you and dine you
Yer so sweet
Wine you and dine you
Choice hunk of meat

I'm a nice guy, on the right track
Let's get high and jump into the sack
wine you and dine you
wine you

Wine you and dine you
And give you flowers
Wine you and dine you
With golden showers

Pop the cork
Gimme a glub of champagne
I'm no dork
A thug with a brain

Wine you and dine you
Wine you

Wine her dine her
Throw her back where I found her
