Kiss me now, girl I've fallen for you,
From the moment we first met, I realized that you're
the one for me
The hardest part is saving my breath 'till hello
I thank my guiding angel for you baby
You've opened up a door that was closed

I know that everything's alright
'Cause baby you complete my life
When I fall in love is forever
And that you were one as my wife

You give me love, love, love, love
Painted like a perfect picture from the one above
Love, love, love, love
I need to see you in the morning when my eyes open up
I wanna make you feel and always let you know you're
the only one for me
'Till death do us part, oh oh
You'll hold my heart

Oh stay with me

I look at you and feel you in so many ways (in so many
ways)
It's amazing how you can move me
With just a simple smile on your face
And with these words I desperately want you to hear
(desperately)
I am the man for you, make all your dreams come true,
never be lonely again

I know that everything's alright
'Cause baby you complete my life
When I fall in love is forever
And that you were one as my wife, yea

You give me love, love, love, love
It's painted like a perfect picture from the one above
Love, love, love, love
I need to see you in the morning when my eyes open up
I wanna make you feel and always let you know you're

the only one for me
'Till death do us part
You'll hold my heart

For better for worse, in sickness and health
It's you and I 'till the end
I pledge my whole life to loving you girl
My heart you hold
Oh you give me love

You give me love, love, love, love
It's painted like a perfect picture from the one above
Love, love, love, love
I need to see you in the morning when my eyes open up
I wanna make you feel and always let you know you're
the only one for me
'Till death do us part
You'll hold my heart

Once upon a time I was falling apart
You came in my life and you made it all better
You lift me up you lifted from the start
Always forever, baby you hold my heart, baby you hold
my heart, baby you hold my heart
'Till death do us part

Once upon a time I was falling apart
You came in my life and you made it all better
You lift me up you lifted from the start
Always forever, baby you hold my heart
