What you see is what I got but you're more than enough
Write a song, catch a break, I've had all I can take
Will you say go?
And I don't know what is keeping me in tune
It's you

Can I tell them the truth and then keep my cool?
Play the melody right and make all the words rhyme
Will you say go?
And I don't know what is keeping me in tune
It's you

A calming over me
I need you singing over me
It's true you are what I need
I need you singing over me

Will you say go?
And I don't know what is keeping me in tune
Will you say go?
And I don't know what is keeping me in tune
It's you
