How are you?  
Is it just another day  
Another way to hide your face and hope that they don't  
find you?  
Where are you?  
Are you gonna make a move  
Take a step, leave a mark, create a legacy?

To come on you come on you  
Gotta act now. Gotta move now. Gotta go  
Come on you know it's time for you to glow

Don't you wait. Don't you wait  
Are you where you want to be?  
Are you where you want to be?  
And don't you think, Don't you think  
You could open up and see  
Are you where you want to be?

How are you?  
Are you living for today?  
Forget the yesterdays and yesterways that can find you  
Come on you know somebody's on your side  
You will now learn to fly  
It's what we were meant to do  
Come on you  
Gotta act now. Gotta move now. Gotta go  
Come on you know it's time for you to glow

Don't you wait. Don't you wait  
Are you where you want to be?  
Are you where you want to be?  
And don't you think, Don't you think  
You could open up and see  
Are you where you want to be?

It's a new day there is a new way to make it through it

Don't you wait. Don't you wait  
Are you where you want to be?  
Are you where you want to be?

And don't you think, Don't you think  
You could open up and see  
Are you where you want to be now?
