"These Days"

Visit "[These Days](#)" on MotoLyrics.com

Through the corners of my life
You have always been around
There are times when I've been down
But you always lift me up
When I fall you pick me up
When I call you come around
Chorus
These days, these days
This time round I'll take my time
This time round I'll learn to listen
You say wisdom comes with age
Now I've finally turned the page
I was blind when I was young
Didn't realise I was wrong
When I fell you picked me up
When I called you came around
Chorus
I can never change the past
Least I have a second chance
Chorus
