

Letters Organize, The "Don't Move"

Visit "[Don't Move](#)" on MotoLyrics.com

We're dying for the love of good living.
Not growing old just to get by.
State your claim and buy your time.
Time has always got me around the neck so I say.

Don't be the one dying young just to get by.
With too many things to do and not enough precious
time.
Inspiration comes from complication.
Complication falls from the tree too often but not
enough.
Complicate myself to inspire myself.
Now everything is all messed up.

If I got the time, who's got the time?
If I find the time, who's got the time?
I've never got the time.

We're dying for the love of good living.
We're not growing old and just getting by.
State your claim and buy your time.
Time has always got me around the neck so I say.

Inspiration comes from complication.
Complication falls from the tree too often but not
enough.
Complicate myself to inspire myself.
Now everything is all messed up.

Don't move while I scream about it.
Don't move, I'll paint it on the walls.
Don't move while I scream about it.
Don't move, I'll paint a perfect picture.
