A spirit overcome, tell the weak don't stop till they cut a vein

No hold on the attack, kill the weak don't stop till you dominate

Well I've come down
So weak calm down
As I drop doubt
And we count down

To be the best of tomorrow
You need to grow strong tonight
You'll be the ghost of tomorrow
Living though, I'm gone

You see I won't succumb to the weak I've stopped to accommodate
The hole and every crack, tell the weak get strapped to the bomb array

Cause I've come down
So weak calm down
As I drop doubt
And we count down

To be the best of tomorrow
You need to grow strong tonight
You'll be the ghost of tomorrow
Living though, I'm gone
[x2]

To be the best of tomorrow
You need to grow strong tonight
You'll be the ghost of tomorrow
Living though, I'm gone
[x2]
