A cure died off now I'm on my sugar rush and more  
I should ride this long road  
I chose my two sided knife

A real loss  
A built loss I designed  
A victim  
A victim signing out

I feel the cold in a war  
That I can't bear to be from  
I'm reaching out of control  
No I can't better this world

The killer died off now  
I fold my two sided knife  
I'm fearless  
A built loss I designed  
A victim  
A victim signing out

I feel the cold in a war  
That I can't bear to be from  
I'm reaching out of control  
No I can't better this world  
She drove me out to be where I'm going now  
You drove me out, are you bored I'm begging now
