How can I? [x4]

*I'm about to find
I fell behind
Shy, I'm kind, I find
Karma's a lie*

*In my past what died
I'm punished for? I try!*

How can I?

*I'm present for a day, a present for a day
What took so long, that's wrong
It's never gonna be the same*

*Don't regret, what's been said
Hold your head, don't regret
I feel as swell, a sense that time will pay
I'm present for a day for a day*

*Gonna get me down
Head is all around
Confident for want it*

*Stuck and tired too
Everyday is new
Confident for want it*
