Seen all the blacks and all the greys
You live a life that I can take
A city drive tonight, I'm sick and tired of fights
I'm sick and tired of lies
I'm sick and tired of fights

Will you try to set a fire
And bring it down, a naked house
Still they try to break a life
Or will they chop two men in half

Seen all the blacks and all the greys
You live a life that I can take
A city drive tonight, I'm sick and tired of fights
I'm sick and tired of lies
I'm sick and tired of fights

Will you try to set a fire
And bring it down, a naked house
Still they try to break a life
Or will they chop two men in half
