We had it out, We're still not over it
we had it out, we cant stay here
we had it out, we had it out
for laughter for drama, im after you
the disaster and awkwardness of lonliness
for laughter for drama, im after you
the disaster and awkwardness of lonliness
save face for your sake
you know you're not easily amused, have i said that to
you?
stand still and listen, and lay transitions on the cards
before, before
we had it out, were still not over it
we've had it out, we cant stay here
for laughter for drama im after you
the disaster and awkwardness of lonliness
laughter drama, Im after you
laughter drama, Im after you
for laughter for drama im after you
the disaster and awkwardness
for laughter for drama im after you
the disaster and awkwardness
disaster and awkwardness
