I'll come pick you up at ten
And we'll spare no expense
Cause I've had this all planned out
For quite a while
You will lean in close and
Tell me how the weather's nice
As my arm goes round your waist
Just one more time

Oh, you know you're not in love
You know you're not in love,
'Til you swear it to yourself
You know you can't erase
You know you can't erase
The mistakes of someone else

Last chance for your
Pretty black dress tonight
If it's time for goodbyes
Then we'll do it in style
Last chance to be
Forward and set it right
It doesn't help that
You're looking so nice tonight

So just come with me and
Let's go make the best of it
And tonight we'll act
The way we did before
If you take it from
A major to a minor key
only then you can be sure
What this is worth

Oh, you know you're not in love
You know you're not in love,
'Til you swear it to yourself
You know you can't escape
You know you can't escape
The mistakes of someone else

Last chance for your
Pretty black dress tonight
If it's time for goodbyes
Then we'll do it in style
Last chance to be
Forward and set it right
It doesn't help that
You're looking so nice tonight

Last chance for your
Pretty black dress tonight
It's such a beautiful night
It's such a beautiful night

Last chance for your
Pretty black dress tonight
If it's time for goodbyes
Then we'll do it in style
Last chance to be
Forward and set it right
It doesn't help that
You're looking so nice tonight

Last chance for your
Pretty black dress
Last chance for your
Pretty black dress
Last chance for your
Pretty black dress tonight
