(Intro)

The Holy Trinity

The Holy Trinity

The Holy Trinity

The Holy Trinity

(Verse)

I'm the father, the first before the son  
From the birth of the earth I have come  
I'm before 3 or 2 'cause I am 1  
We will all meet soon when your time is done  
Yes, I am right and I am wrong  
Yes, I am here and yet I am gone  
Before the alpha and the omega  
A plot that seize but will grow later  
Entities 'cause it's in my nature  
The universe is just an acre  
I emerge as the creator  
Let there be light, a heavenly sight  
Whether it's fate and will decide the maker of life,  
The takes of Christ, the holy divine  
The moment of mine, spoke in a rhyme  
A mold in the sky created a man and gave him a wife  
And showed him the trick to making a life

(Verse)

Overlookin my own views  
I arrive in the physic to bring you the news  
Been here a few times, tryna provide you the rules  
I'm the chess player that knows you better than you  
Think, who could I be? A mystery with no clues  
Might last a journey through time, providing you with  
the truth  
I know the lives was nay and all the fake were choose  
To conspire with hate, I am surprised how they moved  
I'm tryin to turn a new page for your sight is confused  
A blank canvass to paint, new ideas and views  
The outlandish were afraid and then sayin we'll lose  
Read my teachers the game, more knowledge to use

If your dyin is vain, the sense of now is new  
Why the mirror displays, or the time consumes?  
I pay the price for you today and I pray that you do  
Stuntin rap before I see you again, dÃ©jÃ  vu

(Verse)

Now return to the essence  
Fill a chill running down your spine holding by my  
divine presence  
I cannot be defined in the past, present or future tense  
In tune with your 6th sense  
I exist beyond space time  
I'm the star lit sky, the rain cloud down the sunshine  
combined  
The drummer that plays the beat of your heart  
The reason you wanna reach for the stars  
'Cause the spirit is within you, embody me  
You can find God in me, I whisper in your ear  
subconsciously  
Hording the souls of man,  
Pilgrimage to the holy land  
I'll watch your back, even hold your hand to guide you  
Through the many trials of life  
I'm the light when you feel entirely blind  
Many feel inspired to find me in temples in temples  
and churches  
But I'm prison through our parallel universes  
Beyond this galaxy where the earth is  
Wanna see me? look deep beneath the surface  
Impervious to physical pain  
I exist on a spiritual plain  
The soul risen from the grave

(Intro)
