Up around 95, sailing down Storrow Drive  
Left exit into Kenmore Square  
Slowed down when I got there  
And that's when it was crystal clear  
It wasn't there, it wasn't where  
I left it, when I left it  
I want my city back  
Back the way it used to be  
I want it back the way it was  
I looked around and found  
This doesn't feel like my hometown  
And I don't like the way it does  
Stepped out to take a closer look  
Held in with every step I took  
The sadness I felt just to look around  
I looked up to the Citgo Sign  
You used to be a friend of mine  
Do you agree with me at one time  
This was once such sacred ground  
I want my city back  
Back the way it used to be  
I want it back the way it was  
I looked around and found  
This doesn't feel like my hometown  
And I don't like the way it does feel, feel  
How should I feel when the place  
Where I first learned I could feel  
Is no longer where I left it  
When I left it not so long ago  
How should I feel? [x3]  
Well I don't know  
( I want my city back  
Back the way it used to be  
I want it back the way it was  
I looked around and found  
This doesn't feel like my hometown  
And I don't like the way it does feel [x2] )
