Bring in the skins with the pins
And the patches on their flights
The rovers with the clovers
Who've spent far too many nights
Out with us till closin' time
We hope we're not imposing on you
Get the crew together
It's the old school off the bright
Flush the boys out of Dot
We're gonna need them there
Tell the trouble-makers that
Hang out in Harvard Square
We need every able asshole
Every asshole you can spare
We're going off the bright
Invite them to this fine affair
Tell the Irish in Southie
And the South End Puerto Ricans
The North End Italians
And the windbags up on Beacon Hill
There'll be no tomorrow
It's going down tonight
Get the crew together
It's the old school off the bright
We want the punks, the drunks
The lay-about, the steady workin joes
The white collars, the rednecks
And our blue-blooded bros
The jocks, the preps, the stoners
The homeless and homeowners
Every loser, boozier, drug abuser
Sharpie and two-toner
We'll take the jills and bring on the jacks
From Forest Hills all the way to Father Mac's
The rude girls and the rudies
Don't fail, it's your duty
'Cause tonight will be the night
Get the crew together
It's the old school off the bright
