Check the new car out in the mirror  
Here comes the fastest man in the traffic jam  
A major road rager with a bone to pick  
Ill take another quick look and Im over it  
Right youre richer now werent you happier  
When you were shit out of luck  
Youve got so much but youve forgotten  
Its more fun when you dont give a fuck  
Tear it down to the ground  
A lot of kids grew up in there  
You put it up and then you made a ton  
Well aren't you the lucky one  
Right youre richer now werent you happier  
When you were shit out of luck  
Youve got so much but youve forgotten  
Its more fun when you dont give a fuck
