Here I start with nothing  
All I have is in my heart  
The promise of what could be ahead  
A glimpse of light through the dark  
Be my guide when I stumble and fall  
I'll earn your pride and you know I'll give my all

[Chorus]

Every part of me is blessed because of all that you are  
Every dream is only real because we made it this far  
As amazing as it is to touch the furthest star I see  
With you for each breath I breathe  
Is all I wanna be.

Here I stand with one thing  
A hand to walk the road ahead  
I hold on tight and I'm not alone  
No place I'd rather be instead  
Guide me through if I stumble and fall  
Have faith in me cause you know I'll give my all

[Chorus]

Every part of me is blessed because of all that you are  
Every dream is only real because we made it this far  
As amazing as it is to touch the furthest star I see  
With you for each breath I breathe  
Is all I wanna be.

I don't wanna make you cry  
I can't bear to let you down  
I'm gonna make you proud of me  
And just be loved by you to feel this free  
Is that all I wanna be.

[Chorus]

Every part of me is blessed because of all that you are  
Every dream is only real because we made it this far  
As amazing as it is to touch the furthest star I see  
With you for each breath I breathe  
Is all I wanna be,  
Ooh, is all I wanna be.
