"Dethroned Emperor"

originally by Celtic Frost.

See the portal, gate to madness
Locked forever in a veil of shame
Deny extraction, Thirst for disgrace
Watch his break, the emperor's killed
Light of the day, shadow from beyond
Scaffold of steel, the throne is gone

(Chorus)
Dethroned Emperor

The foot of the stairs, dimension in might
The king sits, his eyes are glass..
Growing of the small, The laughters fall
Can you deny, remaining cries?
Decent of the lords, into the trap
Existence and hate, Unseen Hate!

(Chorus)
