I, I, I

Who, what, where, when, why  
How many ways can you lie?  
How many ways can you try?  
How many ways can you die?

What am I gonna do?  
I can't look at you  
What are you gonna do  
You're no hypocrite

I bash my head against the wall everyday  
You'd bash your head against the wall anyway  
And then you'd turn around to see if I care

But I can't, and I never did  
What'd you expect me to give?  
You never deserved my respect  
How many ways can you try?  
It burns a hole inside my mind

What am I gonna do?  
I can't look at you  
Can't look like you  
I'm no hypocrite

What are you gonna do?  
You love to look at you  
Don't have a clue  
You're no hypocrite

You've got a hole inside that you have to feed  
You've got a hole you'll use to get what you need  
And then you took a long to see if I care

But I can't, and I never did  
What'd you expect me to give?  
You never deserved my respect  
How many ways can you try?  
It burns a hole inside my mind

What am I gonna do?  
I can't look at you  
I can't look like you  
I'm no hypocrite

What are you gonna do?  
You love to look at you  
Don't have a clue  
You're no hypocrite

It burns a hole inside my mind  
It burns a hole inside my mind

You've got that look I wanna know  
You've got that look, the hy pro glo  
It burns a hole inside my mind  
It burns a hole inside my mind

You've got that look I wanna know  
You've got that look, the hy pro glo  
It burns a hole inside my mind  
It burns a hole inside my mind

I, I, I

Who, what, where, when, why  
How many ways can you lie?  
How many ways can you try?  
How many ways can you die?

What am I gonna do?  
I can't look at you  
Don't have a clue  
I'm no hypocrite

What am I gonna do?  
I can't look at you  
Don't have a clue  
You're no hypocrite
