"Inside Out"

Visit "[Inside Out](#)" on MotoLyrics.com

I thought I knew what provocation was
I thought I knew what provocation was
I've eaten from the insane root
That imprisons reason

It's in my stomach like fire
And like cancer
And like a knife, I've been gunshot
It's in my stomach like fire
And like cancer
And like a knife, I've been gunshot

Gotta let it go, gotta let it go
Gotta let it go, yeah
It's in my stomach like fire
It's in my stomach like cancer
It's in my stomach
Like a knife, I've been gunshot

Goddamn, nowhere place to be
Dyin' deep inside of me
Always standin' on the inside lookin' out
Can't break a heart so strong with pride
It's more than just bein' alive
I broke the rule with you, I'm out

My only antidote to mental suffering
Is physical pain
I've eaten from the insane root
That imprisons reason
I've eaten from the insane root
That imprisons reason

It's in my stomach like fire
And like cancer
And like a knife, I've been gunshot
It's in my stomach like fire
And like cancer
And like a knife, I've been gunshot

Gotta let it go, gotta let it go
Gotta let it go, yeah

It's in my stomach like fire
It's in my stomach like cancer
It's in my stomach
Like a knife, I've been gunshot

Goddamn, nowhere place to be
Dyin' deep inside of me
Always standin' on the inside lookin' out
Can't break a heart so strong with pride
It's more than just bein' alive
I broke the rule with you, I'm out

Goddamn, nowhere place to be
Dyin' deep inside of me
Always standin' on the inside lookin' out
Can't break a heart so strong with pride
It's more than just bein' alive
I broke the rule with you, I'm out, out, out

Goddamn, nowhere place to be
Dyin' deep inside of me
Always standin' on the inside lookin' out
Can't break a heart so strong with pride
It's more than just bein' alive
I broke the rule with you, I'm out, yeah

Goddamn, nowhere place to be
Dyin' deep inside of me
Always standin' on the inside lookin' out
Can't break a heart so strong with pride
It's more than just bein' alive
I broke the rule with you, I'm out, out, out, out, out
