"Love Her All I Can - W/Paul Stanley & Gene Simmons"

Visit "[Love Her All I Can - W/Paul Stanley & Gene Simmons](#)" on MotoLyrics.com

I remember the times
I was lonely without her
Now she's mine
And I spend my times dreamin' about her

Love her all I can and try to understand
The things that make her glad
The things that make her sad

I'm a lucky guy, I hardly ever cry
And when the world looks bad
She's never ever sad

She's so easy to please
And it doesn't take money, no, no
We can have a good time
When the skies aren't sunny

Ah, I love her all I can and try to understand
The things that make her glad
The things that make her sad

I'm a lucky guy, I hardly ever cry
And when the world looks bad
She's never ever sad

I remember the times
I was lonely without her
Now she's mine
And I spend my time dreamin' about her

I love her all I can and try to understand
The things that make her glad
The things that make her sad

I'm a lucky guy, I hardly ever cry
And when the world looks bad
She's never ever sad
