Stop it
There's been too much debate
We could save ourselves from holocaust
Or is that just our fate

Start now
But we continue to balk
We let the genie out of the bottle
But we still hold the cork

One, two, not!
Three, four, die
One, two, not!
Three, four, die

Ignorance is no excuse
For violence, no one wins
One world! One world!

One world! Welcome to it
One world! Don't abuse it
One world! To live out your life
One world! Total schism, tunnel vision
One world! Taming the beast, fighting for peace

Killing
You pushed a button, that's all you did
It's much harder to kill a man
If you've seen pictures of his kids

Responsibility
And what are all our lives worth?
What kind of sentence would you serve
For killing the earth

One, two, not!
Three, four, die
One, two, not!
Three, four, die

Ignorance is no excuse
For violence, no one wins

One world! One world!

One world! Welcome to it
One world! Don't abuse it
One world! To live out your life
One world! Total schism, tunnel vision
One world! Taming the beast, fighting for peace

One world! One world!

One world! Welcome to it
One world! Don't abuse it
One world! To live out your life
One world! Total schism, tunnel vision
One world! Taming the beast, fighting for peace

Russians
They're only people like us
Do you really think they'd blow up the world
Don't they love their lives less

America
Stop singing hail to the chief
Instead of thinking S.D.I.
He should be thinking of peace

One, two, not!
Three, four, die
One, two, not!
Three, four, die

Ignorance is no excuse
For violence, no one wins
One world! One world!

One world! Welcome to it
One world! Don't abuse it
One world! To live out your life
One world! Total schism, tunnel vision
One world! Taming the beast, fighting for peace

One world!
