Anthrax)

Now I'm gonna tell ya a story  
A tale of wrong and Right  
and freedom is the reason  
You can't take it without a fight

Verse 1

So now I'm startin' up a posse  
(Suck my dick, suck my dick)  
To come and look for you  
We're gonna put a stop  
To what you want to do  
You fucking whores  
(You fuckin' whores)  
That's all you are

Verse 2

You say our records are offensive  
(You're a douche, You're a douche)  
Our messages ain't right  
You say "We're gonna label records  
So our kids can grow up right"  
You fucking whores  
(Let them decide)  
That's all you are

Chorus

Shit, fuck, staan, death, sex drugs, rape  
These seven words you're trying to take  
Shit, fuck, satan, death, sex, drugs, rape  
Right or wrong it's our choice to make  
America the beautiful, Land of the free  
Don't change the words to land of Hypocrisy

Verse 3

Now I'm startin' up a posse  
(Fascist scum, fascist scum)  
And we'll damn sure make you see  
Something that offends you  
May not be offensive to me

You fucking whores  
(You fuckin' whores)  
That's all you are

Verse 4

Now you might take offense  
To a word like "fuck" or "shit"  
(Dick!)  
But you fuckin' don't have the right  
(Cunt!)  
To discriminate me for saying it!  
You fuckin' whores  
( You fuckin' whores)  
That's all you are

Chorus

Verse 5

So now I'm startin' up a posse  
(Motherfucker, motherfuck)  
To fight for freedom of choice  
To fight for freedom of speech  
We're gonna make you hear our voice

Verse 6

And now I don't do this to shock you  
(That's the end, that's the end)  
I don't do this for spite  
You've got the choice, don't buy it, don't read it,  
And don't say your opinion's right  
You fucking whores  
(You fuckin' whores)  
That's all you are  
(Cunty, cunty, cunty, cunt)

Verse 7

You know you can't censor my feelings  
You can't censor my thoughts  
Censorship's against  
Everything America stands for  
You fuckin' whores  
(Let us decide)  
That's all you are  
(And this ain't sexist, either)

Chorus
