"This is Not an Exit"

Visit "[This is Not an Exit](#)" on MotoLyrics.com

I know I'll never be free
Change doesn't come easy
And if I'll never be free
You'll live in hell with me
Hey, hey, hey, hey, hey

Fear, a contradiction co-existence, darkness brought to
light
My own skin don't seem to fit me right
Pain is my way of self expression
A fatal choice that always hangs above
Love what I kill, kill what I love

I run, you run, you stop and then you take it
I run, you run, I stop and then you get it
I run, you run, you stop and then you take it
I run, you run, I stop and then you get it from me

The one who's giant steps ahead of where you'd be
What you don't see
I know I'll never save myself dying from this
immortality

This is not an exit
I can never change it
This is not an exit
It's no way, no

Out, out of touch with mortal thoughts, humanity's a
dream
Things are not what they seem
Hungry for you, but not to hurt you
Hunger for the secret of your life
I'm a timeless clock and you kill time

I run, you run, you stop and then you take it
I run, you run, I stop and then you get it
I run, you run, you stop and then you take it
I run, you run, I stop and then you get it from me

The one who's giant steps ahead of where you'd be
What you don't see

I know I'll never save myself dying from this
immortality

This is not an exit
I can never change it
This is not an exit
It's no way out

It's no way out
There's no way out
It's no way out

I know I'll never be free
Change doesn't come easy
And if I'll never be free
You'll live in hell with me

This is not an exit
This is not an exit
This is not an exit
This is not an exit

I can never change it
You stop and then you take it
I stop and I can't fake it
This is not an exit

Pain is my way of self expression
A fatal choice hangs above
Love what I kill, kill what I love
Love, love, love

This is not an exit
This is not an exit
I can never change it
This is not an exit

Hand over fist
Come and taste my dark trick
Hand over fist
Kill you when I give it

This is not an exit
This is not an exit
I can never change it
This is not an exit
