Drunk dreams,
In tight jeans.
We'll all meet,
At the campus fountain.

Sun dress,
Protests.
We'll all meet,
At the campus fountain.

Mushroom,
Traced moons.
We'll all meet,
At the campus fountain.

In too deep,
To change,
Our minds.

Out of school,
No sign of progress.

Pass along,
Genetic lines?

Fail to think,
Of that as progress.

Pub crawl,
Cast call.
We'll all meet,
At the campus fountain.

Swimsuits,
By noon.
We'll all meet,
At the campus fountain.

Sunshade,
Brigade.
We'll all meet,

At the campus fountain.

Still life,
Of a traffic jam.

Festivals of,
Who owns how much?

Student life's,
Where this began.

Visions sold,
With yellow tassels.

We'll all meet,
With a common status.

We'll all speak,
Just on life and classes.

Without fear,
To fall in. x 3

With our fear,
To fall in.

Will you be,
At the campus fountain?

We'll see you,
At the campus fountain.

We'll all meet,
At the campus fountain!
