I can picture it now  
You in your car  
Left the bar  
Playing big part

Keep up complainin?  
It?s probably rainin?  
Keeping complaining  
It?s probably raining

You?re gonna visit your car  
It?s one of my peeps  
With a blow to your head  
Is that what you need?

You?re probably bleeding  
Is that what you needed?  
You?re probably bleeding  
Just like a movie

Just like a movie  
Just like a movie  
Life doesn?t move me  
Life doesn?t move me

I keep with you now  
Here in your car  
Left the bar  
Playing the big part

Keeping complaining  
It?s probably raining  
It?s one of my peeps  
With a blow to your head

Is that what you needed?  
What you needed  
What you needed  
You caught me breathing

It?s just like a movie  
Life?s just like a movie

It's like a movie  
Just like a movie

It doesn't move me  
Move me, move me  
It doesn't move me  
Life doesn't move

It doesn't move me  
Move me  
It's like a blow to the head  
It's like a blow to my head

It doesn't move me  
Move me, move me  
Move me  
It doesn't move me

It's like a movie  
Just like a movie  
Blow to the head  
Life's like a blow to the head

What you needed  
What you needed  
What you needed  
Life's like a blow to the head

It's that what you needed  
Is that what you needed?  
What you needed  
A blow to the head

Move me, move me  
It doesn't move  
It doesn't move  
It's like a movie

Movie, movie  
Just like a movie  
It doesn't move me  
It's like a movie
