Tricky:

See how the boy test
I lead with my left
(Just lead with my left)
Relieve the stress

See how the boy test
I just lead with my left
Relieve the stress

Take the test
You want an F
Relieve the stress
Before I'd cross
Most of us boss
Who's the bomb
Shalom
Just leak 'em
I'm gonna seek 'em
That the weak ones copy my phrases
Or take from my pages
Saying you're a relation
I can do the vibration
Is your name Quaye son
Or are you just trying to have fun

Boy them stress
Just lead with my left
Relieve the stress

Just a come with me
And what if you are
You might laugh 'cause
I can't freestyle
That don't matter
I just chit-chatter
From the top of my dome
I take it to Rome
Back to Mexico

See them boy test

Just lead with my left
Relieve the stress

This boy who wants to be related
Wanna be my cousin
Wanna be my blood
(Blood)
But he gets no love
He gets no love
'cause I don't see you
I can't see you
Never been back around the days
I see the lies on your page
And you're doing interviews
You should take no note
Try to act like me in what comes out of your throat
It's like you are not my blood

See when those boys stress
Just lead them with left
Relieve the stress

Given where I cross
Who's the boss
Who's the bomb
Shalom
Just leak 'em
Gonna seek 'em
Weak 'em
Calling yourself Quaye
Leave that for another day
Don't you feel no shame
Taking my mother's name in vain
Are you really a Quaye
And if you are how come I never met you before
Maybe a year ago when I was on tour
I booked you into the hotel
I know your name is Magowells
You probably changed 'cause
Supreme
Probably your chains on
Who the bomb
Kid you're funnier than the just go bunny
It might grow until now
You're bound to fail
(Just take)
Take

Boy them stress
I just lead with my left
Relieve the stress

Boy them stress
Just lead with my left
Relieve the stress
