

Tricky "Cycle"

A shining ember cuts through the darkness - It's where
my heart is - it's where all my fear can be found - Just
like ashes in the strongest

Wind - Something controls everything I have to give -
And it's coming around again - The cycle it waits for
you - It's coming around again - Cycle

Cycle cycle it's inside of my head - Torn by choices and
led by passion - My soul's assassin - Will never let me
get very far - The priceless penance

For what I've done hear - Is a cycle of fear - And it will
never stop - And it's coming around again - The cycle it
waits for you - It's coming around

Again - Cycle cycle cycle it's inside of my head
