The five to fours, can't take it no more
The five to fours, can't take it no more
The five to fours, can't take it no more
The five to fours, can't take it no more

Five days, I ran a wolf across highways
In the early spring
(Don't stop, you're gonna break my heart)
The rest of my days

Should I stay? Should I pray?
That I'm here now, clear now
Live with the fears to extend my tears
Shed no, have no, undecided

Five days in which I can't wait now
(I need you)
Can't wait now
(You needed me)

Bet you can't wait now
(Whatever happened to compatible two)
Making you wait now
I ran a wolf across highways in the early spring

The five to fours, can't take it no more
The five to fours, can't take it no more
The five to fours, can't take it no more
The five to fours, can't take it no more

Have I the meanings, I don't think I'm cheating
I create like the windy city
(Don't go)
But the drums spread
(I told you so)

Here we go with the games now, maintain now
Might as well have you down now
Five days that you can't wait now
(No need to smile)
Making you hate now

The five to fours, can't take it no more
The five to fours, can't take it no more
The five to fours, can't take it no more
The five to fours, can't take it no more

Bet you can't wait now, making you wait now
Don't go, I told you so, after what you've had
That look on your face, you rat
When you talk like that I just want to get you back
