"Mortuary Walls"

Visit "[Mortuary Walls](#)" on MotoLyrics.com

On the inside I am breathing
There is no hope or paths I can take
Apart from the one that leads fatal death
Disinfected smiles surrounding me disinfected smiles
The walls are bleeding your name
This cold hard floor bleeds no life
This sick feeling will soon cease
Blood will rise in every wall
In every wall in these walls I am enslaved forever
The torment of your presents the rape of tortured souls
Laying here alone as darkness takes control
I'm drained of life I'm dead to me
