### "My Time"

Visit "[My Time](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You say you know but you don't - Cause it's my time -  
Some people say that everything we do is just - Dumb  
and useless everything  
Is stupid - But I don't believe it - That's why I strive -  
While I'm on the inside bleeding - Why - Am I the only  
one seeing - Everything is over rated -  
Everything is everything so step the fuck back from me  
- Hand over hand I'm crawling to my day - My time will  
come - Sick of you to notice and  
Everybody knows this - You oppose it sit right down and  
close - You're eyes - And still I scream while I'm on the  
inside bleeding - Why - Am I the  
Only one seeing - Everything is overrated everything is  
over rated - Say goodbye - Hand over hand I'm  
crawling to my day - My time will come -  
So lock it up in this sea of trust you can't see what I see  
- And those days of pain keep reflecting back at me -  
And I paid the cost and all was lost  
But still I stood firm - And I see today that I had my  
lessons learned - It's my time - And still I scream while  
I'm on the inside bleeding - Why am I the  
Only one seeing - Everything is over rated everything is  
over rated - And that's why I will live my life - Till the  
day I day exactly how I want to live it -  
So every body know but nobody knows - Nobody knows  
nobody knows
