"Pain Is A Lesson"

Visit "[Pain Is A Lesson](#)" on MotoLyrics.com

Patience now over ride - Question everything you do
open up and see through - I'm offering the only truth -
Use the pain to
Heal you - I make my own mistakes - and I learn from
them well - The pain I feel inside is my own hell - I make
my own mistakes and i learn from them well - The
darkness is coming on in away to everything - And I
smile - Silence now release it throw it
All away - I make my own mistakes and I learn from
them well - The pain I feel inside - Is my own hell - I
make my own mistakes and I learn from
Them well - The pain I feel inside is my own hell - And I
learn from it well it's my own hell - And I learn from it I
learn from it I learn from it well -
Open a way to let me in - I take a breath and start again
- We make mistakes it's what we do - So make your
pain a lesson - I make my own
Mistakes and I learn from them well - The pain I feel
inside is my own hell
