Pumpkin  
You're hollow within  
More how I'm to slowly  
Let their harm  
Give us some

It's sad until  
Like flowers untamed  
Shine out ends  
I find what will make him love me  
Life is our find  
Hollow is he

I can't breathe and I can't see  
MTV moves too fast, I refuse to understand  
You go your way and I'll see mine

Feels like wasted time  
And it feels like I must be blind  
How'd you like yourself?  
You don't know yourself

To a hollow kind, don't mind  
Love is some of you  
Don't dabble in fall of failure  
How, how bad, ooh, ooh

I smell of she and I fail to be  
Well anyway, well anyway, well anyway

See how high  
Go on

I can't see, and I can't breathe  
I can't see, and I can't breathe  
I can't see, and I can't breathe  
I can't see, and I can't breathe  
Well anyway, well anyway
