Down with your feet on the ground and your eyes to the
sky - You lift me up make me feel like you're the way to
go - Tell me all that you
Know let your secrets unfold - Turning all your
darkness into light - Stray why do you beckon me inside
you - Stray why do you beckon me in to
Violate you - Cold like the words that you told in the
darkness you show - All the dirty things and then I start
to see - All the sickness in me wash
Me off till I'm clean - Crucifying everything I thought
was you - Why do you beckon me inside you - Stray why
do you beckon me in to violate you -
What did you think I would say because you're a stray -
Why do you beckon me inside you - Stray why do you
beckon me in to violate you - What
Did you think I would say because you're a stray
