"You Wanna"

Visit "[You Wanna](#)" on MotoLyrics.com

You want to estimate
The distance that it takes
To find a lover, lover

You want to rectify
This mad look in my eyes
Then find your other lover

I found how to be perfect for you my dear
While I was bumpin' around
Bumpin' around

You want to estimate
The distance that it takes
To find a lover, lover

C'mon let's rectify
This mad look in my eyes
C'mon yes let's discover

You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you

You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you
Fail

One day you'll hold your head
So dark and withered dead
Wish you were here

A simple task to feed
Of unforgiven greed
Wish you were here

I found how to be perfect for you my dear
While I was bumpin' around
Bumpin' around

You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you

You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you
Fail

You want to rectify
This mad look in my eye

I found how to be perfect for you my dear
While I was bumpin' around
Bumpin' around

One day you'll hold your head
So dark and withered dead
Wish you were here

A simple task to feed
Of unforgiven greed
Wish you were here

You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you

You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you
Fail

You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you

You don't wanna face me when you
You don't wanna make me when you
You don't wanna take me when you
Fail
