misshaped, darkroom, drama  
letters on the floor  
i'd trade my secrets for answers  
just to get some more, of you

why don't we stop this thing from  
starting if we both see red?  
i've got the keys to your apartment  
you can have them back.  
or we could find the strings that  
tied us here in the first place.  
or we could both lay down in our best clothes  
and kiss each other dead.

bring your sweat my lips are  
thirsty and if  
you listen to me falling  
you might hear the sound  
of someone desperate and aching  
or you might hear the sound  
of someone that needs you

chorus

i've got this tendency  
to lean into emergency  
if disaster is all we see  
then let's just kiss each other dead

why don't we stop this thing from  
starting if we both see red?  
i've got the keys to your apartment  
yeah, you can have them back.  
or we could tie the strings  
that found us here in the first place  
or we could kiss like

we were, to be  
buried, seperately

cause,

waiting for that one last chance  
to save this fleeting romance is like  
watching gold turn into lead  
so let's just  
kiss each other dead.
