can you be anything  
more than i have ever seen?  
can you see anything  
more than i have ever been?

could this really be all that it's told  
is it just a dream that's been bought and sold?  
could this really be just like this?  
this is everything, that i thought i'd missed

tried to get out now i'm falling  
tried to walk now i'm crawling  
tried to speak now i'm stalling....hey, landslide.

victory for the chancers  
put your money down on this cancer  
bleed in a cup, tears in a jar  
let's drive away, we could take your car

tried to get out now i'm falling  
tried to walk now i'm crawling  
tried to speak now i'm stalling....hey, landslide

landslide.

we could take your car...

tried to get out now i'm falling  
tried to speak now i'm stalling  
tried to walk now i'm crawling...hey, landslide

landslide.

you're crushing me,  
with the weight of you  
yeah, you're crushing me,  
with the weight of you
