"Feed me"

I have got to dig in... Keep digging in the dirt
I've got to turn, twist and shout, consider every word
Without taking a shot, at the ultimate sin
I've all but given up, on ever reaching you again
A certain lunacy, has come to visit
I don't know what is and what isn't, anymore

Feed me your highs, feed me your lows
Feed them to me, in a consumable dose
Feed them to be baby, please give them to me now
'Cause there ain't no stoppin' no matter how

I stir my coffee you sip your tea
What're we gonna do
With whom we're gonna be
Without taking in the ultimate sin
I've all but given up on ever reachin' you again

Feed them to me now, please give them to me
'Cause there ain't no stoppin' no matter where when or
how
I know that it's a major no can do
But there ain't nothing else I would rather do
