You and I have been best friends for years  
Through good and bad you're always here  
And no matter what you know I'm there (oh, oh)  
So when you asked me 'Wussup'  
Find you a girlfriend to hook up  
Now you were looking for 'the one'

[B Part]  
I got this feelin' so deep inside of me (then)  
So suddenly I came to realize that I

[Hook]  
Got to have you  
And I don't know what I should do  
And I'm guessing that you don't have a clue  
But I'm thinking that we would be cool  
Let's try it out and see  
How happy we could be  
Then maybe you would be in love with me

[Verse 2]  
I tried to ignore this silly feeling of mine  
But I couldn't help but find some girls  
That weren't your kind (I)  
Hooked you up with Lisa cuz she wasn't too bright  
And I hooked you up with Sheila  
Cuz I knew she wasn't right (then..)

I got this feelin' so deep inside of me (then)  
So suddenly I came to realize that I

[Bridge]  
I got this feeling so deep inside of me  
So suddenly I came to realize that I  
I got to have you and I wanna make you see,  
Give us a try and maybe you would be in love with me
