Woke up today thinking of you

Another night that I made my way through

So many dreams still left in my mind

But they can never come true

I press rewind

I remember when

I close my eyes and I'm with you again

But in the end I can still feel the pain

Every time I hear your name

Chorus

The sun won't shine since you went away

Seems like the rain's falling every day

There's just one heart, where there once was two

That's the way it's gotta be,

'til I get over you

[you.....]

Verse 2

Walked through the park, in the evening air

I heard a voice and I thought you were there

I run away but I just can't escape

Memories of you everywhere

They say that time will dry the tears

But true love burns for a thousand years

Give my tomorrows for one yesterday

Just to know that I could have you here

Chorus

[till i get over..... you...]

Bridge

When will this river of tears stop fallin'

Where can I run so I won't feel alone

Can't walk away when the pain keeps callin'

I've just gotta take it from here on my own

But it's so hard to let goÂ .....

[oh no no no]

[oh no no]

Chorus

[you.....]

[you.....]

thats the way its gotta be until i get over you

[until i get over....you
