And now the sound of time is getting fast

It's getting late

Don't know if I can take much more

The way you talk I often wondered

If I heard the words somewhere

Someplace before

I got so nervous when I called

And found that lately

You had gone and changed your name

But I've got something on my mind

I want you here

I want you now

You better explain

Is it true you're running round

Now is it true they're calling you

The Chelsea Girl

Is it true you're running round

Now is it true they're calling you

The Chelsea Girl

Your best friend never calls you up

But you don't mind

'Cause lately things are all the same  
Ain't it strange how people always seem  
To know your face  
But just don't know your name  
Well I don't care there's no-one there  
That even turn around and say get out of this place  
Last night I saw a shooting star  
When morning comes  
She hides away  
A real disgrace  
Is it true you're running round  
Now is it true they're calling you  
The Chelsea Girl  
Is it true you're running round  
Now is it true they're calling you  
The Chelsea Girl  
Oh Chelsea Girl  
You got me caught up in a whirl  
I want you here now Chelsea Girl
