Cities, buildings falling down

Ideal homes falling down

These pictures I see on the wall

Timeless leaders stand so tall

Assassin in a hit and run

Asia steals a new born son

Evacuees and refugees

Presidents and monarchies

Travel round

I travel round

Decadence and pleasure towns

Tragedies, luxuries, statues, parks and galleries

Europe has a language problem

Talk, talk, talk, talk, talking on

In central Europe

Men are marching

Marching on and marching on

Love songs playing in the restaurants

Airport playing "Bi Some Lo"

Travel round

I travel round

Decadence and pleasure towns

Tragedies, luxuries, statues, parks and galleries

Europe has a language problem

[

Europe has a language problem

America has a language problem

I Travel

Euro-Bureau-Interpol

Making love to the criminals

Asia has a language problem

I Travel

And on and on and on and on and on and on and on
