Kick It In By Simple Minds.

Love gives me poetry

Stays up all night

And puts a curse on me

Oh anything you want

Turn around and I'll take you there

I know it's going to be

Take your shackles off of me

The city's gone, I'm over there

Kick it in, kick it in

Build it up and build it down again

Kick it in, kick it in

Burn down to the ground

Kick it in, kick it in

Tell me about this place you've been

I don't want it

There's a fever going around

Take a walk down town

See what's going on

If you want to find a hiddern key

There's nothing here on me
Any city, anywhere, any colour
I don't care, you belong to me
And that's the way it's going to be
Kick it in, kick it in
Well kick it in, kick it in
Raise it up and let it live again
Fell your body shake and take off
You can lie, keep it in
Keep me down here wandering
What's going to be
Come on in, I like the shape you're in
You keep me wandering, wandering, wandering
Eyes upon you black and brown
Spread your love all over town
Give me fire, body heat
Say hello to me
I want to go anywhere
Any city I don't care
Don't believe in all you see
And don't get caught
Kick it in, Kick it in
Tell me about this love you've been
Kick it in, Kick it in
Turn this life around

Kick it in, Kick it in
Shake the ghosts from deep within
Close the door down
Don't let the demons in
I only want to be your friend
Put your hand in my hand
And take off with me
Listen baby, I'm going home
I'ma going home
Come on walk with me
Cause I know what I see
Kick it in
Kick it in, Kick it in
Tell me about the place you're in
I've got a new gold dream
I'm moving on, I'm moving on
You're moving on, You're moving on
You're moving on
Kick it in, Kick it in
I'm moving on
